ABOUT US

FRESH BY NATURE

From our humble beginnings as a small milk wholesaler in 1993, we've grown to the UK's third-largest liquid dairy supplier. Freshways remains an independent, family-run business serving up excellence with a splash of heart. We remember people's names, we're quick to respond, and when you're in a jam, we mobilise the rescue party.

FRESHWAYS TO DO BUSINESS

When late dairy deliveries disrupt your business, and every night there's frustration curdling in your stomach, just know there's a better way to do things. We're laser-focused on getting you the freshest product in the fastest time possible.

That's why Freshways are the UK's most dependable dairy supplier. We also offer wholesale and retail distribution, dairy product processing, bulk supply, own brand labelling, product development, and brand packaging across London and the UK.

FRESH FOR THE PLANET

We think the world of our planet, and we'll do whatever it takes to leave it better than we found it.

ENVIRONMENT

We are dedicated to safeguarding the integrity of the natural environment and reducing our carbon footprint.

SOCIAL SUSTAINABILITY

Freshways assess the ethical operation of a business by examining its interactions with various internal and external stakeholders.

GOVERNANCE

We're raising the bar in sustainability and farming standards. We're finding new ways to slash emissions and champion animal welfare on our partners' farms.

NATIONWIDE DELIVERY

Our fulfillment centres and processing dairies are located nationwide, enabling us to operate with speed and agility. We supply wholesalers and manufacturers because they know we have the infrastructure to support their volume. But we don't stop there. We serve bakeries, cafés, hotels and retailers, from large franchises to independent stores. Whatever size you are, we're straight from the farm and into the cup within hours.
